

# SUBJECT INDEX

CHEMICAL ENGINEERING PROGRESS

Volume 55

1963

## Abbreviation Key

N—News Item

C.A.—Computer Abstract

S.S.—Abstract from CEP Symposium Series Volume

## A

ABS Plastics, as a material of construction .....Oct. 96-102  
Absorber, turbulent contact .....Dec. 85-89

### ABSORPTION

ammonia, in grid-type column .....Nov. 72-78  
Thesis Index .....Jan. 81  
turbulent contact .....Dec. 85-89  
Acetic Acid, economics of recovering .....Oct. 65-68

### ACETYLENE

production of, by Wulff process .....Feb. 70-77  
by SBA-Kellogg process, flowsheet .....Feb. 70-77

Agitators, selection for mixing viscous liquids .....Mar. 53-59

Air Pollution, trends in electrostatic precipitation .....Sept. 67-72

Alloys, copper, properties and applications .....Sept. 78-83

Aluminum, special properties and application .....July 83-90

### AMERICAN INSTITUTE OF CHEMICAL ENGINEERS

Auditor's Report .....June 144

### AWARDS

Best Paper Presentation, Buffalo .....July 124

Best Paper Presentation, New Orleans .....May 122

Allan P. Colburn .....Nov. 152

Founders, 1968 .....Dec. 112

Max Jakob Memorial .....Sept. 94

Warren K. Lewis, first presentation .....Oct. 134

Professional Progress .....Nov. 152

Professional Progress, award lecture .....Mar. 35-46

William H. Walker .....Nov. 152

Candidates for National A.I.Ch.E. offices for 1964 .....Aug. 87-89

Candidates for Membership .....Jan. 111-112, Feb. 99-100, Mar. 134-135, Apr. 84-85, May 139-141, June 84, 89, July 92, 94, Aug. 94, Sept. 108, Oct. 94-95, Nov. 110, Dec. 43-47.

Coloring Book .....Apr. 15

### COMMITTEES

International Relations .....May 24-25

National Membership, "21-and-over club" .....Mar. 132

Nominating .....Apr. 150

Public Relations, fund raising for film .....Mar. 17

Council Activities .....Apr. 150

Council Resolutions

E. V. Murphree .....Feb. 42

M. C. Whitaker .....July 113

Data Processing Center, new computer .....Aug. 93, 136

Energy Conversion and Transport Division .....Jan. 10

Free Forum, Chicago .....Jan. 15

Future Meetings

Jan. 124-129, Feb. 152-157, Mar. 136-139, Apr. 133-137, May 132-136, June 133-143, July 130-135, Aug. 120-126, Sept. 124-131, Oct. 144-149, Nov. 153-163, Dec. 136-140.

Heat Transfer Division, renamed .....Jan. 10

Institute Lectures, 1963 .....Oct. 106

Local Sections

Jan. 113-117, Feb. 136-143, Mar. 94-103, Apr. 114-125, May 94-104, June 110-121, July 106-112, Aug. 98-101, Sept. 92, Oct. 115-124, Nov. 100-107, Dec. 100-111.

## Meetings

Buffalo .....Mar. 104-112, Apr. 92-98, June 23

Chicago .....Jan. 16-17

Heat Transfer Conference, Boston

June 102-108

Houston .....Apr. 98, Oct. 104-117, Nov. 90-100

JACC, Minneapolis .....May 112

Memphis .....Dec. 102-108

New Orleans .....Jan. 94-104, Feb. 94-98, Apr. 16-18

Petrochemical & Refining Exposition, Houston .....Feb. 103-134, Apr. 16-18

San Juan .....July 97-104, Aug. 90-93, Nov. 42

## News and Notes

Jan. 136, Feb. 176, Mar. 152, Apr. 159, May 148, June 156, July 148, Aug. 136, Sept. 144, Oct. 160, Nov. 178, Dec. 154.

## People

Jan. 105-110, Feb. 144-151, Mar. 114-117, Apr. 126-132, May 122-129, June 132-136, July 124-129, Aug. 112-118, Sept. 94-106, Oct. 134-143, Nov. 152-157, Dec. 112-118.

preventing technical obsolescence .....Oct. 23-25

role in water renovation .....Nov. 37

water renovation TV show .....Apr. 33, July 18, Oct. 118

Amines, aliphatic, where are they going? .....Oct. 53-55

## AMMONIA

production of, flowsheet .....Feb. 70-77

reaction, optimization of feed composition .....Dec. 90-92

recent improvements in the manufacture .....Nov. 60-65

AMMONIUM NITRATE

explosion hazards .....Jan. 66-71

improvements in the manufacture .....Nov. 60-65

Are Process, for chemical synthesis .....Sept. 53-56

Arcolor, for desalination of sea water by direct contact heat transfer .....Dec. 69-75

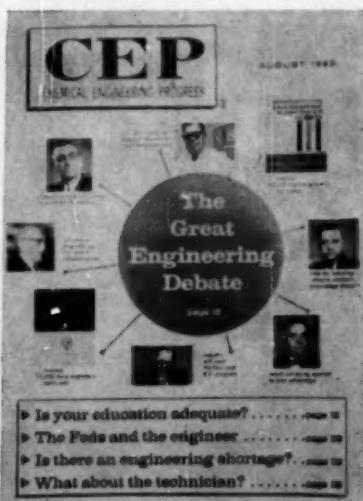

AROMATICS

and derivatives, market competition .....Feb. 36-40

oils for indirect heating .....May 43-46

Automation, of catalytic cracking pilot plant .....June 33-44

Azeotropy, as a separating tool .....June 67-73

## B

Bacteria, can be a nuisance in water .....Nov. 23-25

Batteries (see Fuel Cells)

Beds, packed, turbulent contact absorber .....Dec. 85-89

Biochemicals, fuel for fuel cells .....Oct. 57-59

Biology, aquatic life needs protection .....Nov. 27-29

## BOOKS RECEIVED

Jan. 8, Feb. 18, Mar. 28, Apr. 28, May 14, 27, June 26, July 23, Aug. 49, Sept. 26, Oct. 10, Nov. 9, Dec. 10-12.

Brine (see also water)

desalination technology .....Dec. 53-58

BUBBLE CAP TRAYS

efficiencies measured in desorption experiments .....Apr. 58-64

efficiency comparison with different types of trays .....Mar. 36-46, Mar. 47-54

Butadienes, market prospects .....Feb. 28-31

Butylenes, market prospects .....Feb. 28-31

## C

### CALCINATION

hot cyclone development improves lime yield .....Nov. 95-99

lime kiln design .....Oct. 88-91

Canada's chemical trade in relation to U. S. .....June 9-22

Carbon Black, automatic conveyor system for handling material .....July 84-86

Carbon Dioxide, absorption in alkaline process liquor .....Dec. 85-89

Carbonate, paste electrolytes for fuel cells .....Oct. 41-42

Casting, slurry, preparing double-base solid propellants .....Mar. 81-84

Catalysts, conversion, activity data .....Aug. 53-60

Catalytic Cracking, automated pilot plant described .....June 38-44

Caustic Soda, produced by E-11 mercury cell .....Apr. 77-80

Chem Show, 29th, exposition directory .....Nov. 113-143

### CHEMICAL ENGINEERING

and creativity .....Dec. 33-37

formation of National Academy of Engineering, N .....June 83-89

manpower demands .....Aug. 15-37

utilizing the technician .....Aug. 33-37

Chemical Engineers, where do they come in in water renovation? .....Nov. 36-40

CHEMICAL INDUSTRY

civic responsibilities of companies .....Feb. 49

expansion and modernization of plants, N .....Aug. 93

taking stock, past and future bright .....Nov. 45

U. S. relationship to Canadian chemical activities .....June 9-22

CHEMICAL REACTIONS

dimensionless numbers .....Aug. 75-83

hazard ratings, chart .....Sept. 57-66

Chemical Synthesis, via the high intensity are process .....Sept. 53-56

CHEMICALS

acetic acid recovering .....Oct. 65-68

acetylene

SBA-Kellogg process .....Feb. 70-77

Wulff process .....Feb. 70-77

ammonia

process improvements .....Nov. 60-65

flowsheet .....Feb. 70-77

ammonium nitrate process improvements .....Nov. 60-65

chem show directory, 29th exposition .....Nov. 113-143

chlorine and caustic soda from the E-11 mercury cell .....Apr. 77-80

dodecyl mercaptan .....July 68-73

U. S. relationship to Canadian chemical activities .....June 9-22

### CHEMICAL REACTIONS

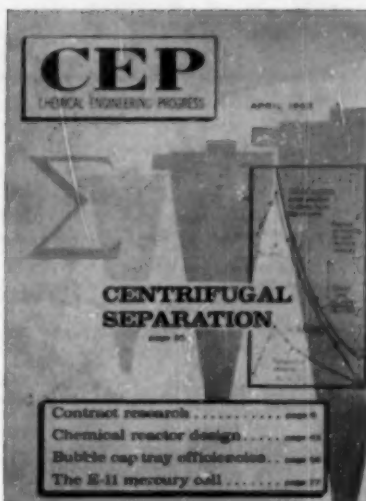

dimensionless numbers .....Aug. 75-83  
hazard ratings, chart .....Sept. 67-68  
Chemical Synthesis, via the high intensity are process .....Sept. 53-56

### CHEMICALS

acetic acid recovering .....Oct. 65-68  
acetylene  
SBA-Kellogg process .....Feb. 70-77  
Wulff process .....Feb. 70-77  
ammonia  
process improvements .....Nov. 60-65  
flowsheet .....Feb. 70-77  
ammonium nitrate process improvements .....Nov. 60-65  
chem show directory, 29th exposition .....Nov. 113-143  
chlorine and caustic soda from the E-11 mercury cell .....Apr. 77-80  
dodecyl mercaptan .....July 68-73

heavy water from hydrogen	Aug. 65-68
hydrazine for fuel cells	Oct. 47-49
hydrocarbons for fuel cells	Oct. 53-54
hydrofluoric acid manufacture	May 85-88
hydrogen, continuous conversion	Aug. 49-54
hydrogen, fuel for fuel cells	Oct. 39-40
hydrogen cyanide	Feb. 70-77
lime	Oct. 88-91, Nov. 95-99
methanol for fuel cells	Oct. 51-52
methylamines, flowsheet	Feb. 70-77
nitric acid process improvements	Nov. 60-65
nitrogen Mollier chart	Nov. 70-71
phosphoric acid, wet-process	Dec. 76-79
phthalic anhydride, flowsheet	Feb. 70-77
plastics as a material of construction	Oct. 96-102
polyphosphoric acid	Dec. 80-84
potash crystallization	Oct. 59-64
production of dodecyl mercaptan	July 68-73
urea process improvements	Nov. 60-65
xylene, para-, purification	Feb. 60-65
water contaminants	Nov. 32-34
Chlorinated Biphenyls, used in high temperature systems	May 30-42
Chlorine, produced by E-11 mercury cell	Apr. 77-80
Chromatography, gas, A.I.Ch.E. Buffalo Free Forum discussion, N.	June 24
Coalescence, equipment used in phase separation	Apr. 35-42
Coalescers, cartridge type, application in chemical processing	Sept. 87-90
Coating, wires with foamed polyolefins	Sept. 30-42
Coliseum, New York, chem show	Nov. 113-143
Cooler, finned-tube, design	Nov. 49-59
COLLECTORS	
small-diameter cyclones	Nov. 66-69
wet-type dust	Oct. 69-74
COLUMNS	
effect of axial mixing on extraction	Nov. 79
pulsed, purification of para-xylene	Feb. 60-63
Communication, getting ideas to management's attention	Dec. 23-32
Computation, of optimum feed composition	Dec. 90-92
COMPUTER ABSTRACTS	
computing transfer function magnitudes	June 98
gradient projection	Mar. 86
Maxfrac (104), a program to aid in evaluating	Mar. 86
predicting equilibrium data for non-ideal binary systems using the Gibbs-Duhem equation	June 98
COMPUTERS	
analog computation of packed tower problems	Oct. 75-80
analog simulation of batch distillation	May 54-58
digital, description of catalytic reformer	Feb. 78-81
Investigation of natural gas reforming plant	Aug. 69-74
use in Chocolate Bayou petrochemical plant, N	Jan. 81
use in engineering education, Ford Foundation, N	Aug. 42
CONCEPT COORDINATION	
EJC booklet explains	Nov. 110
Condensation, in desalination by direct contact heat transfer	Dec. 69-75
Condenser (See also Heat Exchangers) vertical (updraft) partial, flooding	July 51-53
Conduction (See Heat Transfer)	
Contaminants, just what are the worst in water?	Nov. 32-34
Contract Services, accelerating product development	Apr. 9-14, Sept. 13-22
CONTROL	
closed loop, of composition of binary mixture from tower bottoms	Jan. 61-65
of wet-process phosphoric acid process	Dec. 76-79
Conversion (See Heat Transfer)	
Conversion, of hydrogen from ortho to para form	Aug. 49-54
CONVEYING	
pneumatic, of petrochemicals	May 59-63
pneumatic, in the integration of processing systems	May 64-68
Conveyors	
automatic, for handling carbon black	July 54-56
Cooling, of wet-process phosphoric acid	Dec. 76-79
Copper, properties and applications	Sept. 73-83

COSTS (See also Economics)	
fuel cells	Oct. 37-39
generalized correlation of process investment	Feb. 70-77
hydrogen plants	Oct. 39-40
involved in selling process equipment	May 17-23
in optimizing capacity of new plants	May 60-75
of recovering acetic acid	Oct. 65-68
sea water desalination	Dec. 53-58
Creativity, and chemical engineering	Dec. 32-37
Critical Path Method, scheduling of limited resources	Mar. 65-67
CRYOGENICS	
continuous conversion of hydrogen liquefaction	Aug. 49-54
purification of liquefaction-grade hydrogen	Aug. 61-64
Crystals, recent developments and potential, N	Mar. 31
CRYSTALLIZATION	
fractional, separating and purifying hydrocarbons	Feb. 60-65
of potash	Oct. 59-64
Cycling, controlled, operation for counter-current mass transfer processes	June 53-63
CYCLONES	
hydro-, for abrasive solids and high temperature	Apr. 87-90
small-diameter	Nov. 66-69

## D

Dantsig-Wolfe Decomposition Principle, production planning of large systems	Jan. 46-51
Defoaming, by sonic vibrator & centrifuge, N	May 23
Deminerallization, membrane, for water desalination	Dec. 53-58
Derivatives in P-V-T calculations	Nov. 80-83
DESALINATION (see Saline Water Conversion)	
water by direct contact heat transfer	Dec. 69-75
water by extraction-evaporation system	Dec. 59-62
water technology	Dec. 53-58
water by vapor reheat process	Dec. 63-68
DESIGN	
of agitators of viscous liquids	Mar. 55-59
of airfoil-shaped tube supports	July 33-40
of a chemical reactor by dynamic simulation	Apr. 43-48
of evaporators	Jan. 72-75
of finned-tube heat exchangers	Nov. 49-59
of grid-type plates	Nov. 73-78
heat transfer method for plate heat exchangers	July 57-61
high temperature heating systems	May 35-43
hot cyclone	Nov. 95-99
of an inert gas dispersion dryer	Jan. 92-93
of jet spray dryers	Mar. 76-80
of level measuring devices in reboilers	Feb. 66-69

optimum, capacity of new plants	May 60-75
of packed tower by analog computation	Oct. 75-80
of sieve plates in heavy water plant	Mar. 47-54
of small-diameter cyclones	Nov. 66-69
Union Carbide Metals' vertical lime kiln	Oct. 88-91
of wet-type dust collectors	Oct. 69-74
Desorption, of air in a grid-type column	Nov. 72-78
Detergents, foaming problems being licked	July 29
Diffusion, Thesis Index	Jan. 81
Diisopropylamine, for extraction of sea water	Dec. 80-82
Dimensionless Numbers, updated tabulation	Aug. 75-83
DISTILLATION	
analog computation of packed tower problems	Oct. 75-80
azeotropic, separating pairs of liquids	June 67-78
batch, analog simulation	May 54-58
calculating column diameters	July 79-82
column design in pilot plant	June 32-37
comparative performance of tower packings	May 76-82
controlled cycling operation	June 58-63
for desalination of sea water	Dec. 53-58
grid-type plates, characteristics of	Nov. 72-78
by the high intensity are process	Sept. 53-56
improving correlation of tray efficiencies	Apr. 58-64
low temperature, for concentrating hydrogen deuteride	Aug. 65-68
operating characteristics of a propylene fraction unit	June 64-66
performance of sieve & bubble-cap trays	Mar. 47-54
prediction & correlation of tray efficiencies	Mar. 35-46
Thesis Index	Jan. 81
Dowtherm, for liquid or vapor phase heat transfer	May 46-49
DRYERS	
jet spray, used in food industry	Mar. 76-80
spray, used in food industry	Apr. 65-70
DRYING	
dispersion in an inert atmosphere	Jan. 92-93
of heat-sensitive materials by jet spray	Mar. 76-80
Dusts, industrial, collection	Oct. 69-74

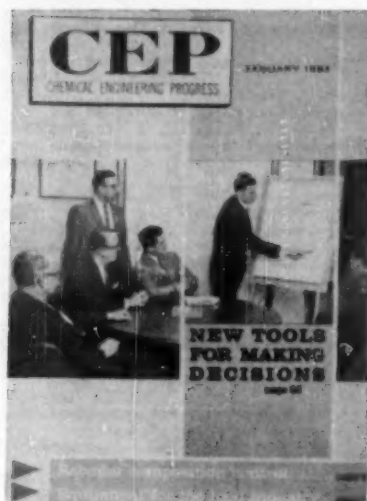

## E

ECONOMICS	
challenges must be met in water renovation	Nov. 21-23
getting ideas to management's attention	Dec. 23-32
optimization of reaction feed composition	Dec. 90-92

# Subject Index (continued)

taking stock: chemicals' past and future  
bright .....Nov. 45  
water renovation problems .....Nov. 36-40

**EDUCATION**  
changes in engineering curricula.....Aug. 18-37  
engineering enrollment increase, N.....Mar. 29  
industry's views on curricula .....Mar. 20-21  
projected NSF-ASEE survey of engineering schools' curricula, N.....May 181  
school for CE teachers .....May 25  
universities as research source .....Apr. 13-14  
Educators, get obsolete too .....Oct. 19-22

**ELECTRODES**  
air .....Oct. 44-45  
carbon, for fuel cells .....Oct. 42-44  
Electrodialysis, for desalination.....Dec. 53-58  
Electrolytes, carbonate, for fuel cells  
Oct. 41-42  
Electrolytes, development of mercury cell  
for chlor-alkali .....Apr. 77-80  
Electromagnetic, radiation produced by  
arc plasmas .....June 51-53  
Electrostatic Precipitation, trends towards  
effective air pollution abatement.....Sept. 67-72  
Engineering Joint Council, information  
retrieval training courses, N .....Apr. 83  
Engineering Manpower Commission, salary  
survey, 1962 .....Mar. 18-19

**ENGINEERS**  
E. J. C. manpower statement of  
position .....June 100  
Industrial engineers displacing chemical,  
N .....Aug. 80  
in public affairs, N .....Feb. 15-44  
relationship to Union, N .....Sept. 23  
role in international programs .....May 24-25  
role in the solid propellant rocket  
industry .....Sept. 43-48  
statistics on manpower .....Sept. 29  
technical obsolescence .....Oct. 13-14  
Enthalpy, measurement .....Nov. 80-83  
Entrainers, use in azeotropic distillation  
June 67-78

**Epoxy Plastics**  
as insulation in electric motors .....Jan. 88-91  
as a material of construction .....Oct. 96-102  
Equation of State, development .....Nov. 80-89  
Equilibrium, data, predicting C.A. ....June 93

**EQUIPMENT** (see also specific headings  
reactors, etc.)  
automatic conveyors for handling carbon  
black .....July 84-86  
cartridge type coalescers .....Sept. 87-90  
centrifuges, disc, in phase separation  
Sept. 85-82  
Chem Show directory, 29th .....Nov. 113-143  
cyclones, in phase separation .....Apr. 85-82  
drying, inert gas dispersion .....Jan. 92-99  
evaporators, recent developments .....Jan. 72-75

evolution of a hydrogen liquefier.....Aug. 49-54  
filtration, applied to hazardous processes  
July 62-67  
finned tubes in heat transfer applications  
July 45-50  
flash evaporator for water conversion  
June 80-83

for the food industry:  
evaporators .....Feb. 87-92  
jet spray dryers .....Mar. 76-80  
spray dryer .....Apr. 65-70  
stationary screens .....Jan. 76-80  
for hazardous chemical processing.....Sept. 57-66  
heat exchanger for indirect heat of  
solids .....Mar. 90-92  
heaters, direct fired cylindrical .....July 41-44  
hot cyclone development improves lime  
yield .....Nov. 95-99  
hydrocyclones, potential applications  
Apr. 87-90  
Mercury cell (E-11) for chlor-alkali  
Apr. 77-80  
for P-V-T measurement .....Nov. 80-88  
scavenger filters .....May 91-93  
small-diameter cyclones .....Nov. 66-69  
specialized pilot plant designs .....June 33-37  
used in fume collection from ferrous  
& nonferrous melting .....Mar. 60-64  
vertical-partial condensers, flooding  
July 51-53  
wire mesh mist eliminators (Demister)  
June 45-50

Estimating, generalized correlation of  
process investment .....Feb. 70-77

**ETHYLENE**  
and derivatives, growth potential.....Feb. 22-27  
in sulfuric acid fuel cell .....Oct. 54-55

**EVAPORATION**  
for desalination of sea water .....Dec. 53-58  
flash, for sea water desalination .....Dec. 59-62  
of potash brine .....Oct. 59-64  
in processing of food products .....Feb. 87-92  
recent developments in equipment.....Jan. 72-75  
vapor reheat process for sea water  
desalination .....Dec. 63-68

**EVAPORATORS**  
flash-type, for water conversion.....June 80-83  
type used in food industry .....Feb. 87-92

**EXPLOSIONS**  
hazards, ammonium nitrate .....Jan. 66-71  
hydrocarbon-air detonations .....Feb. 82-86  
in nitrogen compressor system .....Mar. 72-75  
heat exchanger design .....Nov. 49-59  
Exposition, 29th of chemical industries  
Nov. 113-143

**EXTRACTION**  
of acetic acid .....Oct. 65-68  
and azeotropic distillation .....June 67-78  
controlled-cycling operation .....June 58-63  
effect of axial mixing .....Nov. 79  
for sea water desalination .....Dec. 59-62

**F**

Fabrics, glass-fiber, protective finish  
Apr. 54-57  
Fertilizers, technological advances .....Nov. 60-65

**FILTERS**  
application of cartridge type coalescers  
in chemical processing .....Sept. 87-90  
gas, colloid graphite treatment for fabrics  
Apr. 54-55  
scavenger, operating conditions .....May 91-93

**FILTRATION**  
application of enclosed equipment to  
hazardous operations .....July 62-67  
of wet-process phosphoric acid .....Dec. 76-79  
Flooding, in a vertical updraft partial  
condenser .....July 51-53

**FLUID MECHANICS**  
dimensionless numbers .....Aug. 75-83  
Theis Index .....Jan. 81-82  
in a turbulent contact absorber.....Dec. 85-89  
Fluidisation, S.S. ....Jan. 86  
Fluorocarbon Plastics, as a material of  
construction .....Oct. 96-102

**FOAMS**  
froth spraying of rigid urethane.....July 74-78  
molding of one-shot rigid urethane  
Sept. 33-35

**FOOD INDUSTRY**

equipment for, high capacity stationary  
screens .....Jan. 76-80  
jet spray drying .....Mar. 76-80  
spray dryer .....Apr. 65-70  
water removal, evaporators .....Feb. 87-92  
Freezing, process for sea water desalination  
Dec. 53-58

**FUEL CELLS**  
air electrodes .....Oct. 44-45  
biochemical .....Oct. 57-58  
the carbon electrode battery .....Oct. 42-44  
carbonate paste electrolytes .....Oct. 41-42  
chemical engineering solutions to  
problems, N .....Apr. 81  
the dissolved fuel fuel cell .....Oct. 49-50  
ethylene in sulfuric acid .....Oct. 54-55  
handling impure fuels .....Oct. 53-54  
how fuels qualify .....Oct. 45-47  
the hydrazine system .....Oct. 47-49  
the hydrocarbon fuel cell .....Oct. 35-37  
hydrogen as a fuel .....Oct. 39-40  
liquid metal cells .....Oct. 56-57  
methanol .....Oct. 81-82  
some research goals .....Oct. 37-39  
Fume Control, electric furnace .....Mar. 60-64  
Furnace Plastics, as a material of construction  
Oct. 96-102  
Furnaces, electric, fume control .....May 60-64

**G**

GS Heavy Water Plant, sieve-bubble cap  
plate comparison .....Mar. 47-54  
Gas Cleaning trends .....Sept. 67-72  
Glass Fibers, evaluation of as a protective  
finish .....Apr. 54-57  
Gas-Liquid Flow, annular, heat transfer  
July 54-58

Gas Reforming, computational investigation,  
determining noncoking conditions in a  
plant .....Aug. 69-74  
Gordon Research Conferences.....May 110, June 90

**GOVERNMENT**  
federal funding frightening .....Nov. 47  
federal funds for research and development, N .....June 29  
Office of Saline Water, Dept. of the  
Interior .....Dec. 53-55  
relations with engineers .....Aug. 29-31  
Gradient Projection, C.A. ....Mar. 86  
Graphite, colloid, treatment for fabrics  
Apr. 54-57

**H**

**HEAT EXCHANGERS**  
design of airfoil-shaped tube supports  
July 33-40  
flooding in a vertical updraft partial  
condenser .....July 51-53  
how to design finned-tube .....Nov. 49-59

**CEP**  
JULY 1963  
HEAT TRANSFER  
Is your notebook illegal?  
Enclosed filtration equipment  
Froth spraying urethane foams  
How to calculate column diameters

plate, heat transfer characteristics	July 57-61
simplified correlation of process dynamics	Apr. 49-53
through-wall, for heating of solids	Mar. 90-92
<b>HEAT TRANSFER</b>	
design method for plate heat exchangers	July 57-61
dimensionless numbers	Aug. 75-83
direct contact, for sea water desalination	Dec. 69-75
in a direct fired cylindrical heater	July 41-44
in finned-tube heat exchangers	Nov. 49-59
from transverse finned tubes	July 45-50
in horizontal annular gas-liquid flow	July 54-56
performance of airfoil-shaped supports	
in tube bundles	July 33-40
Thesis Index	Jan. 82-83
in a turbulent contact absorber	Dec. 85-89
in the vapor reheat process for sea water desalination	Dec. 69-68
<b>HEAT TRANSFER MEDIA</b> (high temperature)	
Aromatic petroleum oils	May 45-46
Dowtherm	May 46-49
Molten salt	May 33-35
Silicon compounds	May 59-53
Therminol FR-2	May 39-42
UCON (polyglycol) fluid	May 36-39
for use in indirect heating of solids	Mar. 90-92

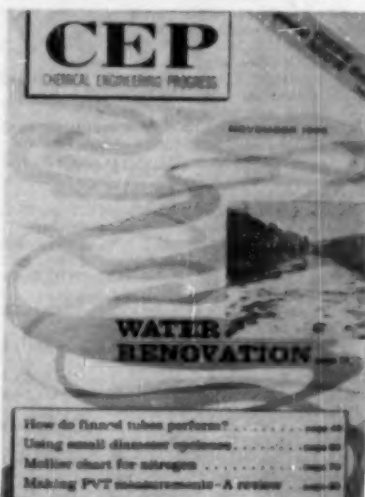

Heat Transfer Salt, as a high temperature heating medium	May 33-35
Heaters, direct fired, measuring temperature gradients	July 41-44
Heating, solids, utilization of thermal fluids	Mar. 90-92
Heavy Water, as a by-product of liquid hydrogen production	Aug. 65-68
Helium, largest plant onstream, N	Oct. 28
H-Oil Process, use in conjunction with Hy-C Cracking	Feb. 53-59
Hoods, for control of furnace fumes	Mar. 60-64
Hy-C Cracking, new hydrocracking process	Feb. 53-59
Hydraulics, grid-type plates, characteristics of	Nov. 73-78
Hydrazine, fuel cell system	Oct. 47-49
<b>HYDROCARBONS</b>	
air detonations in pipes and vessels	Feb. 82-86
fuels for fuel cells	Oct. 53-54
method for determining flash curves	June 54-57
Hydrocracking, development of Hy-C process	Feb. 53-59
Hydrofluoric Acid, manufacture	May 85-88
<b>HYDROGEN</b>	
continuous conversion of liquefaction	Aug. 49-54
conversion catalysts, activity data	Aug. 55-60
fuel cost for fuel cells	Oct. 39-40
producing heavy water as a by-product of liquefaction	Aug. 65-68
purification of liquefaction-grade	Aug. 61-64
Hydrogen Cyanide, by the Andrusow process, flowsheet	Feb. 70-77

Ideas, getting to managements attention	Dec. 23-32
---	------------

<b>INDUSTRY</b>	
to get deeper into water renovation	Nov. 30-32
and technical obsolescence	Oct. 15-18

<b>INFORMATION RETRIEVAL</b>	
booklet explains coordinate indexing, N	Nov. 110
of data in patents	Mar. 68-71
EJC training courses, N	Apr. 88

<b>INSULATION</b>	
foamed polyolefins for wires	Sept. 39-42
polypropylene, overcoming defects	Apr. 73-76
rigid urethane foam	Sept. 33-38
silicones and epoxies for electric motors	Jan. 88-91

<b>INTERNATIONAL</b>	
Canadian-American chemical industry	June 9-22
chemical engineering graduate work in Brazil, N	July 16
costs and industrial productivity	Mar. 22-24
<b>INVESTMENTS</b>	
consideration of Canadian chemical stocks	June 19-22
risk attitudes	Jan. 35-40

## K

<b>KILN</b>	
hot cyclone development improves lime yield	Nov. 95-99
lime, Union Carbide Metals', vertical	Oct. 88-91
<b>KINETICS</b>	
Thesis Index	Jan. 83
water renovation problems	Nov. 36-40

## L

Law, patents	July 9-15
<b>LETTERS TO THE EDITOR</b>	
Jan. 8, Feb. 8, Mar. 8-14, Apr. 22-23, May 26-27, June 25-27, July 20-22, Aug. 10-12, Sept. 11-26, Oct. 11, Nov. 12-13, Dec. 14	
<b>LIME</b>	
hot cyclone development improves yield	Nov. 95-99
vertical kiln for producing	Oct. 88-91
<b>LIQUEFACTION</b>	
activity data on para-ortho conversion catalysts	Aug. 55-60
continuous conversion of hydrogen	Aug. 49-54
heavy water from hydrogen production	Aug. 65-68
purification of liquefaction-grade hydrogen	Aug. 61-64

## M

Magnesium Sulfate, crystallization	Oct. 59-64
<b>MANAGEMENT</b>	
getting ideas to	Dec. 23-32
<b>MANPOWER</b>	
technical demand slips, N	Nov. 41
What do you mean, "Obsolete"?	Oct. 13-14
<b>MARKETS</b>	
for aliphatic amines	Oct. 53-55
development by use of service companies	Sept. 18-19
for major petrochemicals	Feb. 21-40
relationship between Canadian and American chemical activities	June 9-22
<b>MASS TRANSFER</b>	

analog computation of packed tower problems	Oct. 75-80
controlled cyclings as a new mode of operation	June 53-63
dimensionless numbers	Aug. 75-83
grid-type plates, characteristics of	Nov. 73-78
the hydrocarbon fuel cells	Oct. 35-37
Thesis Index	Jan. 84
in a turbulent contact absorber	Dec. 85
<b>MATERIALS</b>	
aluminum, properties and application	July 88-90
Chem Show directory, 29th	Nov. 113-143
classification of stainless steels	June 92-96
copper, properties and applications	Sept. 78-83
epoxies for electric motors	Jan. 88-91
glass fibers, protective finish	Apr. 54-57
graphite, colloid, treatment for fabrics	Apr. 54-57
high-purity, production using high intensity arc process	Sept. 53-56
plastics as a material of construction	Oct. 96-102
silicones for electric motors	Jan. 88-91
Thesis Index	Jan. 84
<b>MATERIALS HANDLING</b>	
pneumatic conveying of petrochemicals	May 59-63
pneumatic transport in integration of processing systems	May 64-68
Maxfrac (104), evaluating, C.A.	Mar. 96
<b>MEASUREMENTS</b>	
liquid level, in internal column reboilers	Feb. 66-69
P-V-T data	Nov. 80-83
Mercaptans, dodecyl, process	July 63-73
Mercury Cell, development of E-11 Cell for chlor-alkali	Apr. 77-80
<b>METALS</b> (See materials, also specific headings)	
liquid, fuel cell	Oct. 56-57
<b>METHANOL</b>	
fuel cells	Oct. 51-52
Methylamines, production of	Feb. 70-77
flowsheet	Feb. 70-77
Microorganism, can be a nuisance in water	Nov. 23-25
Mist Eliminators, development of composite meshes	June 45-50
<b>MIXING</b>	
axial, effect upon performance of extraction columns	Nov. 79
batch, of viscous liquids	Mar. 55-59
simplified correlations of process dynamics	Apr. 49-53
Molding, of one-shot rigid urethane foam	Sept. 33-38
Mollier Chart, for nitrogen	Nov. 70-71
Motivation, and success of Research & Development	Dec. 23-32
Motors, electric, insulated with silicones and epoxies	Jan. 88-91

## N

<b>NATIONAL SCIENCE FOUNDATION</b>	
support for engineering research, N	Jan. 18
<b>NATURAL RESOURCES</b>	
ground water has to be replenished	Nov. 23-30
what about water?	Nov. 20-21
Nitric acid, recent improvements in the manufacture	Nov. 60-65
Nuclear Engineering, Part IX, S.S.	Aug. 84

## O

Operations Research, in project evaluation and selection	Jan. 41-45
<b>OPINION AND COMMENT</b>	
to catch a thief	Jan. 23
engineers and government	Dec. 51
federal funding frightening	Nov. 47
grass root activity rewarding	Mar. 23
international relations a must	Apr. 33
modern historical sleuthing	July 31
needed: engineers for all seasons	Oct. 23
patent publication promising	Sept. 31

# Subject Index (continued)

progress through the ages ..... May 81  
 VITA, IIE, IRC ..... Aug. 47  
 when is a B.S. not one? ..... June 81  
 you have a date in New Orleans.....Feb. 81  
**OPTIMIZATION**  
 of large systems .....Jan. 46-51  
 multistage, application of  
 dynamic programming .....Jan. 52-60  
 of reaction feed composition .....Dec. 90-92  
 scheduling of limited resources.....Mar. 65-67  
**ORGANIC CHEMICALS** (see chemicals,  
 also specific chemical)

## P

P-V-T Data, measurement .....Nov. 80-83  
 Packings, tower, comparative  
 performance .....May 78-82  
**PATENTS**  
 law and the chemical engineer .....July 9-15  
 as a source of information .....Mar. 68-71  
**PERSONNEL**  
 getting ideas to managements  
 attention .....Dec. 23-32  
 what are technical people really like  
 Dec. 33-37  
**PETROCHEMICALS** (see also plastics and  
 specific materials)  
 overcapacity and market growth.....Feb. 21-40  
 pneumatic conveying techniques.....May 59-63  
 Pharmaceuticals, operations research  
 activities .....Jan. 41-45  
 Phase Equilibrium, techniques for  
 P-V-T measurements .....Nov. 80-83  
 Phenolic Plastics, as a material of  
 construction .....Oct. 96-102  
**PHOSPHORIC ACID**  
 poly-, anhydrous liquid .....Dec. 80-84  
 wet process, technology .....Dec. 76-79  
 Phthalic Anhydride, production of,  
 flowsheet .....Feb. 70-77  
 Physical Chemistry, conventional approaches  
 not enough in water renovation.....Nov. 34-36  
**PILOT PLANTS**  
 continuous crystallization to purify  
 para-xylene .....Feb. 60-65  
 continuous multibed flow reactor.....Apr. 43-48  
 reducing complexity of fluid catalytic  
 cracking .....June 33-44  
 a tool in developing new chemical or  
 petroleum processes .....June 33-37  
**PLANTS**  
 acetic acid recovery .....Oct. 65-68  
 for aliphatic amines .....Oct. 83-85  
 ammonia, explosion in nitrogen  
 compression system .....Mar. 72-75  
 calcination of limestone .....Nov. 95-99  
 GS, heavy water, use of sieve  
 plates .....Mar. 47-54  
 large-scale natural gas reforming.....Aug. 69-74  
 operation of propylene fractionation  
 unit .....June 64-66

optimum design capacity .....May 69-76  
 sea water desalination .....Dec. 53-56  
 wet-process phosphoric acid .....Dec. 76-79  
 Plasma Technology, uses in chemical  
 processing .....June 51-53  
**PLASTICS** (see also specific material)  
 as a material of construction .....Oct. 96-102  
 pneumatic conveying techniques  
 within producing and processing  
 plants .....May 59-63  
 production up, profitability down,  
 N .....May 29  
 U.S. leads in production, N .....Aug. 38  
 Plates, comparative performances of  
 sieve and bubble-cap .....Mar. 47-54  
 Pollution, small-diameter cyclones  
 reduce .....Nov. 66-69  
 Polyester Plastics, as a material of  
 construction .....Oct. 96-102  
 Polyethylene, as a material of  
 construction .....Oct. 96-102  
 Polymerization, in situ, encapsulation  
 of fibers in plastic, N .....July 17  
 Polyolefins, foamed, for coating  
 wires .....Sept. 39-42  
 Polymers, Thesis Index .....Jan. 84-85  
 Polyphosphoric Acid, anhydrous  
 liquid .....Dec. 80-84  
 Polypropylene, overcoming defects  
 for use as insulation .....Apr. 73-76  
 Polyvinyl Chloride Plastics, as a  
 material of construction .....Oct. 96-102  
 Polyvinylidene Chloride Plastic, as a  
 material of construction .....Oct. 96-102  
 Potash, crystallization .....Oct. 59-64  
 Potassium Sulfate, crystallization.....Oct. 59-64  
 Precipitators, wet-type dust .....Oct. 69-74  
 Pressure, volume-temperature,  
 measurement techniques .....Nov. 80-83  
**PRESSURE DROP**  
 in desalination by direct contact  
 heat transfer .....Dec. 69-75  
 in finned-tube heat exchangers.....Nov. 49-59  
 performance of airfoil-shaped  
 supports in tube bundle .....July 33-40  
 Process Control, Thesis Index .....Jan. 85  
 Process Design, by multistage  
 optimization .....Jan. 52-60  
**PROCESS DYNAMICS**  
 equations for reactor design .....Apr. 43-48  
 simplified correlations .....Apr. 49-53  
 Thesis Index .....Jan. 85  
 Process Equipment, selling:  
 guarantees, vendor know-how,  
 contacts .....May 17-23  
 Process Investment, general  
 correlation of .....Feb. 70-77  
**PROCESSES**  
 for aliphatic amines .....Oct. 83-85  
 are, high intensity, for the synthesis  
 of high purity refractory carbides  
 and metals .....Sept. 53-56  
 conventional approaches not enough  
 in water renovation .....Nov. 34-36  
 cryogenic absorption, for removing  
 low boiling impurities .....Aug. 61-64  
 direct contact heat transfer for  
 sea water desalination .....Dec. 69-75  
 extraction-evaporation system for  
 sea water desalination .....Dec. 59-62  
 fertilizers .....Nov. 60-65  
 Hy-C cracking .....Feb. 53-59  
 low-temperature distillation, for con-  
 centrating hydrogen deuteride.....Aug. 65-69  
 polyphosphoric acid .....Dec. 80-84  
 production of dodecyl mercaptan.....July 68-73  
 for recovering acetic acid .....Oct. 65-68  
 sea water desalination .....Dec. 53-58  
 Thesis Index .....Jan. 81  
 vapor reheat for sea water  
 desalination .....Dec. 63-68  
 water renovation problems .....Nov. 34-40  
 wet-process phosphoric acid .....Dec. 76-79  
 Product Development, via contract  
 services .....Apr. 9-14  
 Sept. 13-22  
**PRODUCTION**  
 getting ideas to managements  
 attention .....Dec. 23-32  
 planning, of large systems .....Jan. 46-51  
 Professional Society, preventing  
 technical obsolescence .....Oct. 23-25  
 Programming, dynamic, in solving  
 multistage optimization problems.....Jan. 52-60

Propane, for extraction of sea  
 water .....Dec. 59-62  
**PROPELLANTS**  
 importance of complete mission  
 analysis .....Sept. 49-52  
 problems in manufacture of cast  
 solid rocket motors .....Sept. 43-49  
 solid double-base, prepared by a one-  
 step slurry casting process .....Mar. 81-84  
**PROPYLENE**  
 and derivatives, growth potential.....Feb. 32-35  
 operating characteristics of  
 fractionation unit .....June 64-66  
 Pumps, used in pilot plant  
 operations .....June 33-37

## R

Reactions, optimization of feed  
 composition .....Dec. 90-92  
**REACTORS**  
 chemical design by dynamic  
 simulation .....Apr. 43-48  
 detonations in .....Feb. 82-86  
 for production of wet-process phosphoric  
 acid .....Dec. 76-79  
**REBOILERS**  
 composition control .....Jan. 61-65  
 internal column, liquid level  
 measurement .....Feb. 66-69  
 Recruiting, how technical recruiters  
 hire, N .....Oct. 31  
 Reformers, catalytic, mathematical  
 model .....Feb. 75-81  
**RESEARCH**  
 application for product develop-  
 ment .....Sept. 20-21  
 contracts for accelerating new  
 product development .....Apr. 9-14  
 NSF, broadens program, N .....Jan. 18  
 project evaluation .....Mar. 24-26  
 Thesis Index for 1962 .....Jan. 8-85  
 unsolved problems in liquid-liquid  
 extraction .....Nov. 79  
**RESEARCH AND DEVELOPMENT**  
 creativity and chemical engineering  
 Dec. 33-37  
 getting ideas to managements  
 attention .....Dec. 23-32

## S

**SAFETY**  
 ammonium nitrate explosion .....Jan. 66-71  
 devices installed in nitrogen  
 compression system .....Mar. 72-75  
 evaluating hazards in chemical  
 processing .....Sept. 57-66  
 factors in optimizing capacity of  
 new plants .....May 69-75  
**SALARIES**  
 E.M.C. report, 1962 .....Mar. 18-19  
 foreign, ratio of wages to U.S.  
 wages .....Mar. 22-24

N.S.P.E. survey, 1961, N	Aug. 45
Saline Water, desalination technology	Dec. 53-58
Saline Water Conversion, by the flash evaporator	June 80-83
Salt, molten, as a heat transfer medium	May 35-36
SBA-Kellogg Process, acetylene flowchart	Feb. 70-77
Screens, high capacity, in food industry	Jan. 76-80
SEPARATION	
azeotropic, applied to chemical reactions	June 67-78
conventional approaches not enough in water renovation	Nov. 34-36
correlations of centrifugal concentrating and coalescing equipment	Apr. 35-42
Silicon Compounds, as heat transfer media	May 50-53
as insulation in electric motors	Jan. 88-91
Solvents, for sea water desalination	Dec. 59
Space Power Systems, morphological and systems engineering approach, N	Aug. 119
Spraying, new method for applying foam in frothed form	July 74-73
Stainless Steel, application and use in chemical processing plants	June 92-96
SYMPOSIUM SERIES	
Fluidization	Jan. 86
Nuclear Engineering, Part IX	Aug. 94

## T

TECHNICAL OBSOLESCENCE	
educators get obsolete too	Oct. 19-22
what can a professional society do	Oct. 23-25
what do you mean "obsolete"?	Oct. 13-14
what part does industry play	Oct. 15-18
Technology, gap exists in management	Dec. 23-32
Television, water renovation film available	Oct. 118

Temperature, volume-pressure, measurement techniques	Nov. 30-38
Temperature Gradients, radial and axial, measured in vertical direct fired helical coil heater	July 41-44
Therminol FR-2, design of high temperature systems	May 39-42
THERMODYNAMICS	
Thesis Index	Jan. 85
water renovation problems	Nov. 36-40
Thesis Index, chemical engineering research roundup	Jan. 81-85
Toxicity, of water impurities	Nov. 25-27
Transfer Function, computing magnitudes, C.A.	June 98
Trays (see specific headings)	
TRAY EFFICIENCIES	
bubble-cap, measured in desorption experiments	Apr. 58-64
prediction and correlation	Mar. 35-46
TRENDS	
bite-size detergents appeal to bacteria	July 23
civic responsibilities a growing part of business	Feb. 49
doctorates in Ch.E. lagging pace set by E.E.'s	Dec. 49
engineering to unlock fuel cell potential	Apr. 31
federal outlays stagger imagination	June 29
how many working Ch.E.'s?	45,000 in 1960 says NSF
how technical recruiters go about hiring you	Oct. 31
a look into crystals' own crystal ball	Mar. 31
median salary in NSP survey was \$11,460 last year	Aug. 4
plastics production up, profitability down	May 29
the realities are catching up with the computers	Jan. 31
taking stock: chemicals' past and future bright	Nov. 45

## U

UCON, polyglycol fluid as a heat transfer medium	May 36-39
Urea, recent improvements in the manufacture	Nov. 60-65
URETHANE	
froth spraying of rigid foams	July 74-78
molding of one-shot rigid foams	Sept. 83-89

## V

Vapor-Liquid Equilibrium, Thesis Index	Jan. 85
Vaporization, flash curves for processing of hydrocarbon mixtures	June 54-57
Volume, temperature-pressure, measurement techniques	Nov. 80-88
von Neumann-Morgenstern utility theory, measuring risk attitudes	Jan. 35-40

## W

Water (see also Saline Water Conversion)	
desalination by direct contact heat transfer	Dec. 69-75
desalination by extraction-evaporation system	Dec. 59-62
desalination technology	Dec. 53-58
desalination by vapor reheat process	Dec. 63-68
WATER RENOVATION	
T.V. film available	Oct. 118
television features A.I.Ch.E. program	July 19
what it means to you	Nov. 19
World Petroleum Congress, N	Feb. 100
World Power Conference, Lausanne, Switzerland meeting, 1964, N	June 127

## X

Xylene, para-, pulsed column purification	Feb. 60-65
---	------------

# AUTHORS INDEX

## A

Alves, G. E.	Aug. 75
Anthony, A. P.	Oct. 47
